AMOF FJELL PROCESS TECHNOLOGY
A PASSION FOR INNOVATION

For more than forty years, AMOF Fjell Process Technology has been designing specialized high-pressure process equipment for fish industry, sludge treatment plants, oil and gas production and processing. We also design and deliver complete or partial systems related to plants for protein extraction, sludge and liquid waste treatment.
AMOF FJELL PROCESS TECHNOLOGY:
ON-BOARD FISHING VESSEL PLANTS AND COMPACT PLANTS

A global innovator within mechanical thermodynamic high-pressure process systems and equipment

Compact Fishmeal Plant

AMOF Fjell Process Technology has a long history of designing, manufacturing, installing and commissioning compact fish meal plants for on-board fishing vessels. Typical plants have a capacity range of between 15 to 700 tons of raw materials per day.

Compact Fishmeal Plants (typical):

AMOF Fjell has a wide range of experience from modifications and delivery of fish meal plants, fish silage plants, sludge plants, waste heat evaporator plants, waste water treatment plants etc. for the fishing industry, fishing vessels, land based industry and offshore activities.
AMOF FJELL PROCESS TECHNOLOGY:
COST-EFFECTIVE SOLUTIONS WITH OPTIMISED DESIGN AND MATERIALS

By combing our mechanical design and materials technology experience with high-end process engineering; thermal calculation, fluid flow, fluid mechanics- AMOF Fjell is able to create robust and effective process equipment design solutions with optimised design, materials, increased capacity and extended operating life.

Waste Water Treatment Plant:

Waste Heat Evaporator plant at Kunashir Island (FE Russia):
YUKR, Kunashir Island (Far East Russia) / ASTW Delivery 2018 (Ongoing contract) Fish meal factory: Capacity of approx. 500 tons/day

Process Equipment within AMOF FJELL expertise:
- Dryers
- Evaporators & Condensers
- Coagulators, Preheaters and Cookers
- Shell & Tube Heat Exchangers
- Vapor Handling Equipment
- Process Skids
- Pressure Vessels

AMOF FJELL BUSINESS AREAS:
- Fish Oil
- Fish Meal
- Protein Concentrate
- Sludge
